

Hello,I am writing to tell you that I love my xmradio. The idea of resorting to back to public radio is depressing. Since xmradio started offering instant traffic and weather -- it has added another demension to my radio listening. I don't have to search around for traffic and weather on the public stations and wade through all the endless chatter etc... With xmradio I go to one place for the information and it is always available.

Please don't take xmradio traffic and weather away from me.
